The Location

Los Ninos is situated a ten minute drive above Frigiliana and twenty minutes from Nerja with its superb beaches and restaurants. Please click here for Google map location.

This area is noted as having the best climate in Europe with an average temperature of 18c so even during winter months the weather is expected to be warm and sunny. Nerja is a popular resort with lovely beaches but keeps the charm and character of its fishing heritage.

Frigiliana is quite simply one of the prettiest villages in Spain with Moorish influences, narrow cobbled streets with idyllic shops selling ceramics, local wine, leather goods etc. Nearby are the famous Nerja caves with their ancient wall paintings. Walking, golf, horse riding, water sports are all available for the more energetic.

Coast/Beaches

There are three main coastal resorts that can be reached in under 30 minutes, Nerja, Torrox Costa and Torre del Mar. If you travel further east past Nerja towards Almunecar you find many beautiful secluded beach areas and rocky coves.
